

Trade Policy Preferences

By tamu.edu

 \$2.00 • \$12.00/hr  10 mins  2500 places

This survey explores what factors may drive workers' opinions on trade policies.

This survey consists of 26 questions, many of which are short demographic questions, and should take less than 10 minutes to complete.

This survey requires respondents to be over 18, English-speaking, full-time or part-time employed, non-students, and born in the United States.
