

**What is your section number?**

Alternatively, you can write your TA's name.

900 - Duncan

**Suggestions for review**

Do you have any suggestions for next week's Monday review session? (recall that the plan is to review a couple of past papers)

**What's news?**

What are the TWO things that you learned NEW from this 209 class?

- p-values/null hypothesis
- how to understand statistics

**Comments for main instructor**

Are there any comments on 209 lecture in general? What went well for you? What are the points of improvement?

Lecture was good; it might be nice to look at the book a bit during lecture.

**Comments for TA**

Are there any comments on 209 lab in general? What went well for you? What are the points of improvement?

Duncan was pretty great, aside from it being 8:30, I was able to follow well because he taught it well

### What is your section number?

Alternatively, you can write your TA's name.

902 - Duncan

### Suggestions for review

Do you have any suggestions for next week's Monday review session? (recall that the plan is to review a couple of past papers)

Step - by - step instructions to include  
in the paper.

### What's news?

What are the TWO things that you learned NEW from this 209 class?

R studio coding

importance of control variables

### Comments for main instructor

Are there any comments on 209 lecture in general? What went well for you? What are the points of improvement?

maybe some guest lectures who have  
written research papers to present them

### Comments for TA

Are there any comments on 209 lab in general? What went well for you? What are the points of improvement?

DUNCAN was awesome & helpful!

**THANK YOU FOR YOUR ANSWERS!**

Alternatively, you can write your TA's name.

900

### **Suggestions for review**

Do you have any suggestions for next week's Monday review session? (recall that the plan is to review a couple of past papers)

No, I like the current plan.

### **What's news?**

What are the TWO things that you learned NEW from this 209 class?

- How to code.
- How to interpret regressions and what code formules meant.

### **Comments for main instructor**

Are there any comments on 209 lecture in general? What went well for you? What are the points of improvement?

- I enjoyed the lectures in general, there is not anything I would say needs to be changed.

### **Comments for TA**

Are there any comments on 209 lab in general? What went well for you? What are the points of improvement?

- My TA often talked extremely fast and there was not a lot of time in lab to properly explain certain codes.  
The also had a lot of procrastinating going over things that were not relevant or we did not need for the assignments in class.

**THANK YOU FOR YOUR ANSWERS!**

**Evaluation Penultimate**

Alternatively, you can write your TA's name.

902, Duncan

**Suggestions for review**

Do you have any suggestions for next week's Monday review session? (recall that the plan is to review a couple of past papers)

I would appreciate an overview of concepts from HW1 & HW2

**What's news?**

What are the TWO things that you learned NEW from this 209 class?

Learned how to use R-Markdown & how to run regression models

**Comments for main instructor**

Are there any comments on 209 lecture in general? What went well for you? What are the points of improvement?

Be more interactive.

**Comments for TA**

Are there any comments on 209 lab in general? What went well for you? What are the points of improvement?

I thought I received an adequate amount of knowledge on how to use R.

THANK YOU FOR YOUR ANSWERS!

Alternatively, you can write your TA's name.

Duncan

### **Suggestions for review**

Do you have any suggestions for next week's Monday review session? (recall that the plan is to review a couple of past papers)

I would love an outline of what we need to have and any new codes we need to know

### **What's news?**

What are the TWO things that you learned NEW from this 209 class?

How to use R-Markdown

different types of biases

### **Comments for main instructor**

Are there any comments on 209 lecture in general? What went well for you? What are the points of improvement?

Sometimes the explanations for concepts ~~were~~ weren't clear ~~or~~ or easy to follow. I like how you go over overarching concepts.

### **Comments for TA**

Are there any comments on 209 lab in general? What went well for you? What are the points of improvement?

I love the outline you give us sometimes for homework.  
You are my favorite TA I've had so keep doing what you are doing!

**THANK YOU FOR YOUR ANSWERS!**

Alternatively, you can write your TA's name.

902 - Duncan Espenshade

### Suggestions for review

Do you have any suggestions for next week's Monday review session? (recall that the plan is to review a couple of past papers)

The errors & biased sections of the final paper, as well as the comparison between multivariate & bivariate models.

### What's news?

What are the TWO things that you learned NEW from this 209 class?

How to use R Markdown, as well as how to interpret more math-based data.

### Comments for main instructor

Are there any comments on 209 lecture in general? What went well for you? What are the points of improvement?

Sometimes I would get a little lost during lecture. However, it was always helpful that Dr. Jo would recap what we had learned & was so good at answering questions. I would love to take another class with Dr. Jo!

### Comments for TA

Are there any comments on 209 lab in general? What went well for you? What are the points of improvement?

Lab was great! Duncan was a great TA. R Markdown wasn't at all easy for me, but he always answered my questions well. He was especially helpful in office hours. I would take another class with him for sure!

THANK YOU FOR YOUR ANSWERS!

209-902

Duncan

### **Suggestions for review**

Do you have any suggestions for next week's Monday review session? (recall that the plan is to review a couple of past papers)

How to improve Final Paper.

### **What's news?**

What are the TWO things that you learned NEW from this 209 class?

- Bivariate models
- Coding
- Interpret results of survey better

### **Comments for main instructor**

Are there any comments on 209 lecture in general? What went well for you? What are the points of improvement?

The class was great, points of improvement would be a outline for Homeworks.

### **Comments for TA**

Are there any comments on 209 lab in general? What went well for you? What are the points of improvement?

Lab was great, Duncan did a fantastic job explaining everything. He as well answer emails late night on question regarding Homeworks. Improvement could be made by going a bit slower in labs especially when talking about coding.

**THANK YOU FOR YOUR ANSWERS!**

### Suggestions for review

Do you have any suggestions for next week's Monday review session? (recall that the plan is to review a couple of past papers)

Go over the details that create a good paper from a great paper.

### What's news?

What are the TWO things that you learned NEW from this 209 class?

- ① The use and role of new software in politics
- ② How to properly use it.

### Comments for main instructor

Are there any comments on 209 lecture in general? What went well for you? What are the points of improvement?

Maybe more code and explanation. Also tying in text book and class exams, would help clear confusion on Friday.

### Comments for TA

Are there any comments on 209 lab in general? What went well for you? What are the points of improvement?

Loved Friday labs went through and helpful class when it came to R. Nothing left unanswered and necessary details were covered so there was no confusion when going to the framework assignment!

THANK YOU FOR YOUR ANSWERS!

Alternatively, you can write your TA's name.

900 - Duman

### **Suggestions for review**

Do you have any suggestions for next week's Monday review session? (recall that the plan is to review a couple of past papers)

Can we review examples and go over the conclusion requirements

### **What's news?**

What are the TWO things that you learned NEW from this 209 class?

R studio and I learned about boxplots and regression lines.

### **Comments for main instructor**

Are there any comments on 209 lecture in general? What went well for you? What are the points of improvement?

I appreciate how spaced out the assignments were. I liked the DIY portion of lecture

### **Comments for TA**

Are there any comments on 209 lab in general? What went well for you? What are the points of improvement?

I learned the most in my lab section because it was easy to understand the code and ask for help. I was also able to connect w/ my peers.

THANK YOU FOR YOUR ANSWERS!

## Evaluation Penultimate

### What is your section number?

Alternatively, you can write your TA's name.

Duncan Espenshade.

### Suggestions for review

Do you have any suggestions for next week's Monday review session? (recall that the plan is to review a couple of past papers)

Go over the rubric in depth for Research Paper #2. How to meet each part of the rubric.

### What's news?

What are the TWO things that you learned NEW from this 209 class?

- Causality
- Causality relating to political science research.

### Comments for main instructor

Are there any comments on 209 lecture in general? What went well for you? What are the points of improvement?

Learning how to actually do the coding in order to get the results & interpretations we need works too well.

### Comments for TA

Are there any comments on 209 lab in general? What went well for you? What are the points of improvement?

Lab was rough. Going over what we went over in class at a slower, more in-depth, dumb-down pace would be nice.

THANK YOU FOR YOUR ANSWERS!

902

### Suggestions for review

Do you have any suggestions for next week's Monday review session? (recall that the plan is to review a couple of past papers)

Code for running graphs, running points in graphs, and trust graphs and data interpretation

### What's news?

What are the TWO things that you learned NEW from this 209 class?

1) How to code

2) How complex surveys and data really are

### Comments for main instructor

Are there any comments on 209 lecture in general? What went well for you? What are the points of improvement?

Very comprehensible, taught a little fast sometimes

### Comments for TA

Are there any comments on 209 lab in general? What went well for you? What are the points of improvement?

Very helpful with code in labs

I just wish on the Rmd lab files you'd tell us how to interpret our data instead of just putting questions

THANK YOU FOR YOUR ANSWERS!

## Evaluation Penultimate

### What is your section number?

Alternatively, you can write your TA's name.

902 / Duncan / suspended

### Suggestions for review

Do you have any suggestions for next week's Monday review session? (recall that the plan is to review a couple of past papers)

?

### What's news?

What are the TWO things that you learned NEW from this 209 class?

1. How to make regressions in R.
2. How to analyse data through statistical tests.

### Comments for main instructor

Are there any comments on 209 lecture in general? What went well for you? What are the points of improvement?

I think that the lecture size makes it difficult to really absorb information. Not the teacher's fault, though.

### Comments for TA

Are there any comments on 209 lab in general? What went well for you? What are the points of improvement?

Duncan is a great TA! He was very adaptable and took feedback into consideration.

THANK YOU FOR YOUR ANSWERS!

Duncan -402

### **Suggestions for review**

Do you have any suggestions for next week's Monday review session? (recall that the plan is to review a couple of past papers)

I think looking over past papers will be just great (A Probit paper would be great too!)

### What's news?

What are the TWO things that you learned NEW from this 209 class?

I've never done anything remotely close to coding before so the entire process of learning R studio was new to me.

### Comments for main instructor

Are there any comments on 209 lecture in general? What went well for you? What are the points of improvement?

I found myself relying on the textbook to learn how to interpret things like R-squared value or P-value etc. I think the class was very good at explaining everything up until how to interpret those results in our own data.

### Comments for TA

Are there any comments on 209 lab in general? What went well for you? What are the points of improvement?

At first I was very overwhelmed because it moved very fast and I didn't understand what was expected of me but once I started to understand what made up the final and also learned how to take the best lab notes it all shaped up for me.

THANK YOU FOR YOUR ANSWERS!
