- I feel like I learned everything necessary for the writing assignments and problem sets. However, it feels like a lot of stuff that we went over which wasn't used on the assignments aren't things I'm going to remember. I think having completion assignments every week to go over what we learned would have been a good incentive to try and really learn everything.

- Duncan is the best TA I have ever had. He asked us constantly for feedback and made clear that he felt disconnected from the student due to the amount of time he has been a TA for this course. Of course, this was not the case, for he was more helpful in the long run than Dr. Horz due to the structure of the course leaning heavily on the grading by the TA.
